

CHRISTMAS CARDS & GIFTS

We're delighted to launch this year's Christmas Project!

We're offering all children the opportunity to create their own Christmas artwork at home, which you can then order as personalised cards.

There are also many gift items available to purchase with your child's design on, such as magnets, keyrings, mugs, baubles, photoblock, notebook, wrapping paper, coasters and many more. An exciting addition this year, is a personalised storybook starring your child and their artwork! So no more struggling to think what to buy all the relatives!

Templates and full instructions will be sent home with your child by the end of this week, and a few spare templates will be available at the school office. Please note that designs can ONLY be submitted on the template provided.

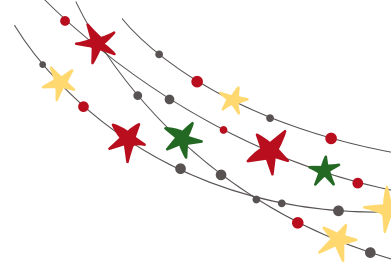

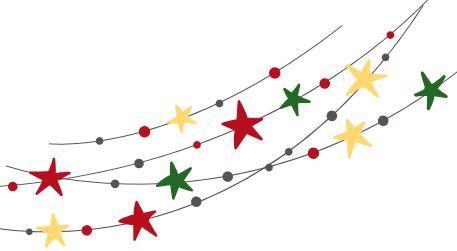

The following page shows a few of the products available to buy, and please see below for key dates. Please note that as we are using an external company, we are unable to extend these deadlines for artwork or orders.

Once we have submitted the artwork, we will provide details on how to view your child's artwork and products, and order online.
